

Riot Control - equipment & training

VEHICLES

ULTIMATE RIOT CONTROL VEHICLE

An anti-riot vehicle with water cannon is the ultimate crowd and riot control vehicle. Using the INTERNATIONAL 7400 SBA 6X4 chassis. Its many systems are designed to safely end potentially dangerous situations. The vehicle is fully armored and comes equipped with dual anti-riot water cannons, as well as many other features.

RIOT CONTROL VEHICLE ON MB CHASSIS

RIOT CONTROL VEHICLE ON MB CHASSIS

RIOT CONTROL VEHICLE ON MB CHASSIS

BREACHING LADDER VEHICLE

Modular designed, vehicle-based adjustable ramp system for elevated entry and capable of fitting a variety of vehicles. Provides the fastest, safest and most reliable tactical access in the world. The system can be removed from and installed on vehicle by removing the ramp sub-sections. In most cases, the platform base unit remains on the vehicle. It is highly recommended that the system remain on the vehicle to reduce response times when needed.

RIOT CONTROL VEHICLE ON GM SILVERADO CHASSIS

BARRIER RIOT CONTROL VEHICLE

Fit for occasions of various rallies, demonstrations, enforcement of guard, seal off of traffics, as well as disorders and riots in large scale.

BALLISTIC WHEEL

WATER RESTRAINT SYSTEM

HEADQUARTERS

ANTI-RIOT COMMANDER VEHICLE

This vehicle is fully equipped with communications and computer technology to make the unit a self-sufficient emergency command post.

AERIAL SURVEILLANCE SYSTEM

An advanced aerial surveillance system, based on lightweight stabilized imaging payloads, mounted on a small and easy to operate tethered helium Aerostats. The system is operational with military, police and counter terror forces around the world as well as with broadcasting commercial companies.

BARB BARRIER

A security barrier that is fully automatic in putting out and pulling back the barrier fence. Only one to two persons are required to complete the task. Laying the fence can be completed within 5 minutes. Fence length can reach 75 meters.

CROWD CONTROL BARRIER

SPIKE ROAD BLOCK

Fast open Road Block, with advanced tire inflation spikes.

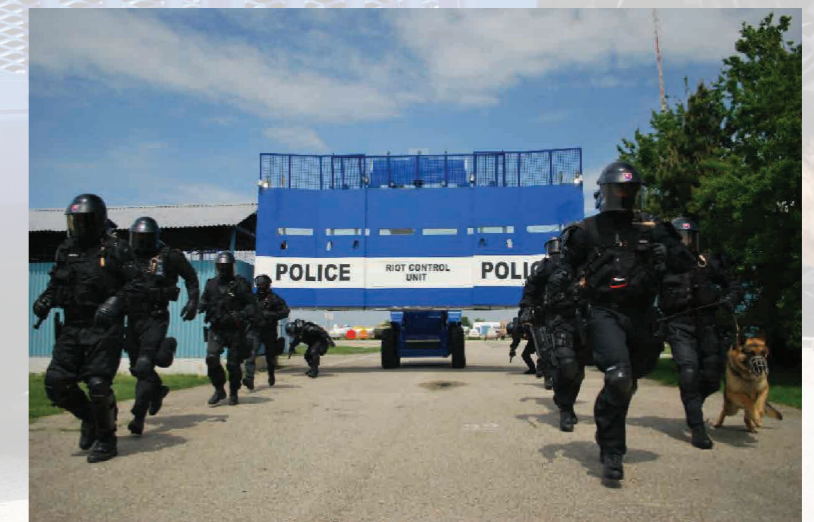

VEHICLES

ANTI RIOT VEHICLE

Remotely operated, armored vehicle designed to handle riots and mobs in the streets and urbanized areas. The system offers a solution for both protecting the law-enforcement units in action and controlling the situation whenever peace maintenance is required. The machine's design follows the concept which has been in use in various countries across Europe, Africa, America and Asia for several years. The system comes with a high performance, low noise and low-emission engine, equipped with internal automatic fire extinguishing features. The system can be supported with various accessories which serve as easily deployable, efficient tools capable of:

- Directing or dispersing gathered groups into desired directions or areas.
- Safe and effective access control.
- Direct observation and monitoring of the crowd situation enabling dispersal of serious rioters.
- Accessing buildings, bridges and other elevated positions occupied by aggressors, from an elevated platform.
- Communication with rioters through the loudspeaker and protected display situated in the front part of the system.
- Various other tasks such as removal of barricades, vehicles, dangerous objects and materials, by means of additional attachments.
- Attachable applications such as tear gas and water jets.

PROTECTIVE GEAR

FOAM UPPER BODY & SHOULDER PROTECTOR

FOAM FOREARM PROTECTORS

PROTECTION GLOVES

GROIN PROTECTOR

HARD-SHELL SHIN PROTECTORS

PROTECTION VEST

ARM & ELBOW PROTECTORS

THIGH PROTECTOR

PROTECTION GLOVES

SHIN & KNEE PROTECTORS

BALLISTIC HELMET & ANTI RIOT VISOR

Ballistic helmet conforming to level IIIA with anti riot visor. Provides protection for the head and face.

BALLISTIC HELMET & VISOR

Ballistic helmet conforming to level IIIA with ballistic visor. Provides ballistic protection for the head and face.

UNIVERSAL VISOR

Universal fit face shield system that adapts to many helmets to provide face protection in riot conditions.

BALLISTIC HELMET

V50 1300-2200 fps.

UNIVERSAL VISOR WITH WIRE SCREEN

SHOOTING GOGGLES

Lightweight frameless eye protection system that offers a unique combination of high-impact resistance and unrestricted field of view.

TACTICAL GOGGLES

High-performance goggle system for highly-active police activities. The goggles feature exceptional fog resistance, particle filtration and comfort.

ROUNDED RIOT SHIELD

Riot Shield

Hand held body shield with ergonomic features made of clear polycarbonate for clear view & rubber padded handles. 500x900x3-4mm.

ELECTRIC RIOT SHIELD

Hand held body shield with clear polycarbonate for clear view & rubber padded handles, provides voltage of 50,000 Volts.

Capture Shield

Hand held body shield with ergonomic features made of clear polycarbonate for clear view & rubber padded handles. Designed for cell extraction and capture applications in close range.

LONG ANGULAR SHIELD

Hand held body shield with ergonomic features made of clear polycarbonate for clear view & rubber padded handles. Designed with extra length to allow full body protection.

BATON

Made from polypropylene like the police plastic tonfa batons. Although they are comparatively lightweight, they are highly resistant to fracture. Standard lengths: inch/cm: 17/43, 19/48, 21/53, 23/58, 25/63

TONFA

Developed in a co-operation with specialists for training in a fight with the side-handle baton. Length: 23,2" (590 mm) Weight: 510 g Material: polypropylene

TRAINING BATON

TRAINING TONFA RB1404

EXPANDABLE TONFA

Made from high-quality duralumin. This material ensures high rigidity. It is very compact when closed and does not obstruct your movements. In case of need it can be drawn out very quickly to its full length.

CUFFING BATON

Combines the power and strength of a baton with the restraint and control of a handcuff, in an ergonomic design that allows even the smallest police officer to control the largest suspect safely and easily.

WOODEN BATON

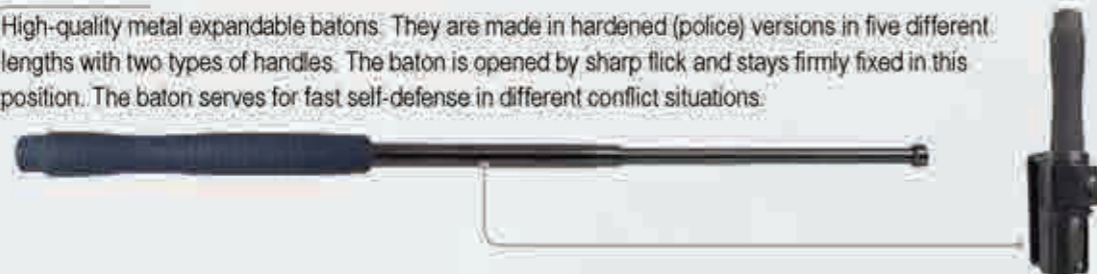

STUN BATON

Powerful defensive weapon for stunning and hitting. When used as a stun baton, it delivers a debilitating 300,000 volts shock to the attackers.

EXPANDABLE BATON

High-quality metal expandable batons. They are made in hardened (police) versions in five different lengths with two types of handles. The baton is opened by sharp flick and stays firmly fixed in this position. The baton serves for fast self-defense in different conflict situations.

Folded position

COMBINED CUFFS

Chain link handcuffs combined with legcuffs. Effectively restricting hand and leg movement.

LEGCUFFS

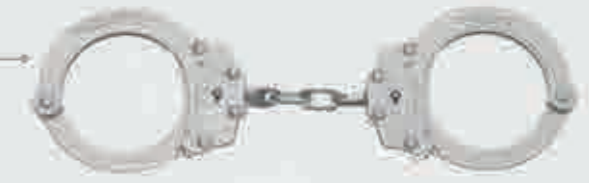

HINGED HANDCUFFS

Stainless high-grade steel. Provides additional restraint by more effectively restricting hand and arm movement.

STANDARD HANDCUFFS

Increased execution for extremely strong wrists. Made of stainless high-grade steel.

SPEED CUFFS

TRAINING CUFFS

UNIVERSAL CUFF'S KEY

NON LETHAL SOLUTIONS

TEAR GAS EJECTOR

The tear gas ejector weapon contains a special CS/CN/OC fog-formulation. Evaporated solution contains floating in air powerful CS/CN/OC particles. Will affect a large group of aggressors, within few seconds, from up to 15 meters in still air.

SKUNK

A liquid with a specific gravity and viscosity identical to that of water. It's unique attribute is that it has a very strong stench. Nonetheless, it is environmentally and human friendly, and does not cause any harm or damage to the environment or to health.

MULTI HIGH PRESSURE SPRAYING DEVICE

Feature the launching distance of up to 25 meters as well as the possibility to adjust from full jet to spray stream as well as the simple handling and practicable operation.

HIGH VOLUME ACOUSTIC DEVICE

Communicate with authority using the latest in hailing and warning systems. Sends your message loud and clear, achieving distances beyond 500 meters to enhance force protection through increased stand off distances.

HIGH PRESSURE SPRAYING DEVICE

The refillable High Pressure Spraying Device is specially designed for police forces and security authorities. It serves to the riot control special units maintaining and establishing law and order.

ACOUSTIC BROADCASTING EQUIPMENT

Specially designed and developed for emergency disposal, propagation, break down the psychological defense of enemies, rioters and terrorists to the maximum degree. Can be installed on vehicles, helicopters or ships.

Mounted on helicopter

Mounted on vehicle

CATCHING NET DEVICE

Propelled by compressed air and able to catch a target from 3 to 8 meters in one second. The Catching Net is made of high strength Nylon Fiber and can be fully opened for 16 square meters.

38mm 9-TUBE ANTI-RIOT GRENADE LAUNCHER

PERSONAL GEAR

T-SHIRT

100% Cotton

THERMAL UNDERSHIRT & UNDER TROUSERS

Total versatility, total performance through high exertion in cold conditions. Ultra-lightweight insulating layer engineered for core temperature consistency.

UNDERWEAR

100% Cotton

ULTIMATE KNEE PADS WITH NON-SLIP PADS

KNEE PADS

ELBOW PADS

RIOT CONTROL GLOVES

Molded black hard shell Carbon-Tek™ fiber knuckles and panels to deflect blows and debris. With Foam injected padded knuckles and wrist.

ULTIMATE RIOT CONTROL GLOVES

Molded black hard shell Carbon-Tek™ fiber knuckles and panels to deflect blows and debris, concealed with leather with Foam injected padded knuckles.

TACTICAL GLOVES

Backs of hands feature CarbonTek™ Hard Knuckles for impact protection with Ergonomic cut and fit and Kevlar® shell that provides cut resistance and flash protection to 427°C

LIGHTWEIGHT SHOOTING GLOVES

Non-slip grip reinforced palms and finger tips

1.5-3L RESERVOIR

WATER RESERVOIR WITH SHOULDER STRAPS

Stand-alone hydration system.

PERSONAL BAG

Made of water resistant Cordura nylon. 3 heavy duty zippered pouches on ends of bag. Front has expandable baton holder, small flashlight pouch, clipboard and radio holders.

EQUIPPING BAG

Designed to carry Crowd Control and/or SWAT gear and includes a separate helmet storage area. Quality construction consists of water resistant Cordura nylon, heavy-duty zippers and removable nylon web shoulder strap.

SECURING LANYARD

MULTI PLIERS

PERSONAL GEAR

COVERALL / UNIFORMS

Fireproof (Nomex®). Available in black or green.

KEVLAR® TACTICAL HOOD

NOMEX® MASK

TACTICAL BELTS

TACTICAL BOOTS

LAW ENFORCEMENT BOOTS

ANTI-STAB PROTECTION VEST

MULTI PURPOSE TACTICAL VEST

Tactical Vest designed for Anti-Riot Forces and SWAT team personnel, light and designed to carry different types of accessories. One size fits all.

COOLING SHOULDER STRAPS

Designed to be worn under a normal outer garment. Specifically designed to provide comfort and heat stress protection.

ANTI-STAB PANEL

Flexible stab resistant vest panels provide lightweight stab armour solution.

2-WAY RADIO

Professional 2-way radio: 16/99 channels capacity, range up to 6 Km.

HEADSET

THROAT MIC.

DUTY BELT

HANDCUFFS POUCH

BATON HOLDER

RADIO POUCH

FLASHLIGHT POUCH

TELESCOPIC BATON POUCH

MAGAZINES POUCHES

PISTOL HOLSTER

PERSONAL DEFENSE

JET PROTECTION

Non-lethal self defense tool. It renders pepper sprays obsolete and stops threats at a safe distance. The Jet Protection contains 4 cylinders with powerful concentrations of high grade OC, a devastatingly effective inflammatory agent.

STUN GUN WITH SAFETY PLUG

Electrical stun gun, intended for professional use for security companies, and for the police. One of the most important advantages of the stun gun is a hand strap with safety plug. This hand strap hangs off the wrist and makes the stun gun inoperative the moment the device is violently pulled out of hand.

IRRITANT AGENT SPRAYING DEVICE

Developed in cooperation with international security forces, it satisfies all important police operational criteria. Modular system with easy changeable refill cartridge. It allows deciding on different mounting possibilities and is also very easy to change from left to right hand. All to be done with no tools.

QUICKSTOP IRRITANT AGENT

Developed through cooperation with international security forces, it satisfies all important police operational criteria. The design concept of the spray makes it impossible for it to be used incorrectly, even in extremely stressful situations, and it can also be easily used when wearing gloves, easy to handle and can be carried in any trouser or shirt pocket.

STUN GUN WITH PEPPER SPRAY

Defensive device, combining a defensive spray and an electric stun gun. Adding the defensive spray has increased the radius of safety of electric stun guns for defense up to a range of 2m. The stun gun and defensive spray are combined into one device that can be easily operated with one hand.

IRRITANT AGENT SPRAYING DEVICE - REFILLABLE CONCEPT

Can be refilled with liquid and compressed air and immediately be reused within seconds. Different from using normal training cans is the fact, that there will be no special waste after the use of Policeman, the empty can will just be used again.

POCKET FLASHLIGHT SPRAYING DEVICE

Miniature adapter contains complete flashlight with 4 batteries AG5 and rubber sleeve.

DEFENSE GUN

Hand held defensive system for the professional user. It expels a liquid irritant jet on targets up to 4-6 meters with very high accuracy utilizing a pyrotechnic charge.

IRRITANT AGENT CROWD SPRAY

Easy to handle. Has a practical spray safety device. The special locking mechanism provides protection against misuse and unintentional spraying, as well as allowing the spray device to be immediately ready for use.

GEAR-BACK RETRACTABLE SYSTEM

Prevents loss of your irritant agent spraying device while in action with minimum resistance during use.

NON LETHAL WEAPONS

12GA SHOTGUN

Law enforcement pump action shotgun. Specially designed for police uses.
Caliber: 12ga. Folding stock.

37/38 - 40mm LAUNCHER

Folding stock

37/38 - 40mm LAUNCHER COMBINED ON ASSAULT RIFLE

37/38-40mm TACTICAL LAUNCHER

Designed and built for law enforcement.
2 grips for more control and better handling of the weapon.
Chambered for 37/38mm shells.

37/38-40mm MULTI LAUNCHER

- Double action trigger
- Safety: Trigger lock
- Caliber: 37/38mm OR 40mm
- Capacity: 6 shots OR 8 shots
- Ammunition: 37mm OR 40mm

HANDGUN LAUNCHER

37/38 - 40 mm Riot handgun, characterized by its small size, light weight and easiness to carry and use.
Firing Range of: 100-130 meters.

NON LETHAL AMMUNITION

CONTROLLED IMPACT

Effective for quelling isolated individuals or groups with the impact effects of rubber projectiles. Ammunitions are available in 12-gauge, 37/38mm, 37/40mm and 40mm calibers, with the lowest degree of non-lethality, an excellent alternative to conventional ammunitions. Controlled impact munitions are highly intimidating.
